Quantum Design

Product Announcement

Environmental Load Lock

Protect your environmentally sensitive samples with the new Environmental Load Lock, compatible with all Quantum Design PPMS® platforms. Mount your sample onto any of our standard pucks and then load it into Environmental Load Lock all within your glove box. Then safely transfer your protected sample into the system without exposure to atmosphere.

- Compatible with all Quantum Design PPMS® platforms
- Compatible with standard Quantum Design sample pucks, maximum total height of 50 mm
- Intuitive and easy to use compatibility with cryostat
